Epicentral

Casino revenue goes up when EPICENTRAL goes in!

PROVEN EPIC SUCCESS

EPICENTRAL® Print System — connected directly to TransAct's ServerPort™ device inside the slot machine — is an easy-to-use, cost-efficient software system that empowers casinos to internally develop marketing programs and promotional coupons to be distributed to customer on a real-time basis at a slot machine.

AN EPIC SYSTEM

- Works with all existing slot systems and games because it's separate from the slot system itself
- Protects your investment in the Epic 950® — no need to change out the printer, simply upgrade your existing Epic 950 printer with ServerPort™
- Allows casinos to easily change out legacy printers by adding the Epic 950 and ServerPort to existing slot machines

RESULTS TELL THE EPIC STORY

- 100% increase in lower-tier player Average Daily Theoretical (ADT) on day of random award
- 87% loyalty club coupon redemption rate
- 73% boost in coin-in for single 1-hour unadvertised promo
- 40% redemption for coupons that encourage mid-week visits
- 30% bump in new player loyalty club enrollment
- 25% increase in players qualifying for top-tier.
